GINKONet

Growing roots for a new digital preservation network

NDSA Digital Preservation Conference, October 9, 2025

Rachel Howard, Reid Boehm, Danielle Taylor, Ben Parn

Roots of GINKONet

ASSOCIATION OF RESEARCH LIBRARIES

"Exposing Hidden Collections" conference (2003)

Meta Archive cooperative

Distributed digital preservation networl (2004-2025)

Digital PRESERVATION

National Digital Information Infrastructure and Preservation Program (NDIIPP)

LOCKSS Program

LOCKSS (Stanford

MetaArchive in a nutshell

6 founding partners (2004-2007)

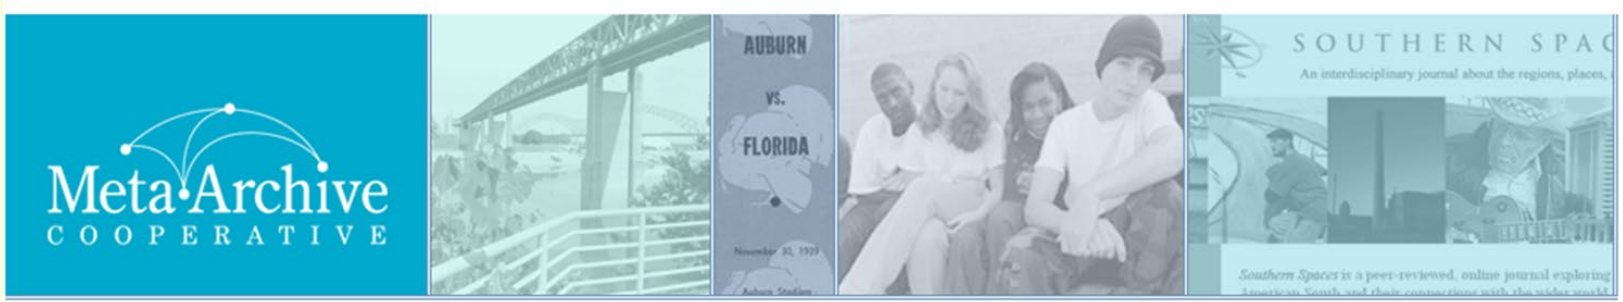
Growth and maturation (2007-2019)

Adaptation (2019-2024)

Sunsetting (2024-2025)

Dandelion Archive (2025-2026)

Dandelion Archive



Seedlings for GINKONet

Alabama Digital Preservation Network (ADPNet)
2006-Present

Michigan Digital Preservation Network (MDPN)
2019-Present

Indiana Digital Preservation (InDiPres)
2016-Present

Growing Branches of GINKONet

Kentucky

University of Louisville

Ohio

Case Western Reserve University

Greater Indiana

InDiPres, Purdue University, Indiana University, Notre Dame

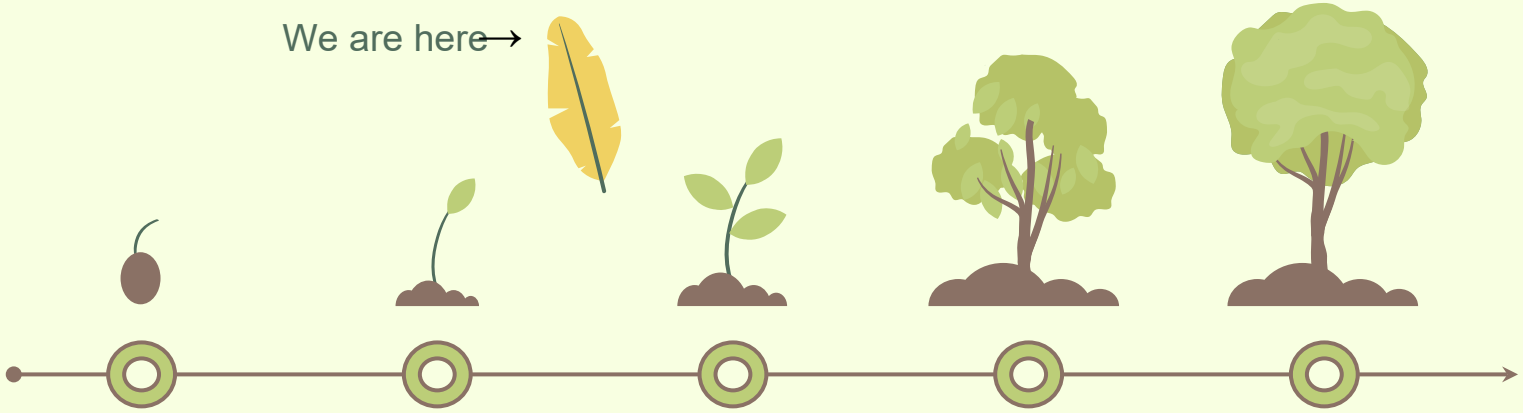
LOCKSS

LOCKSS Program and Network Community support

Many of us came from MetaArchive, others had similar interest to establish a network and distributed community of institutions.

Each institution makes unique contributions and has their own specific needs

Where we are and where we're going



Network Sunset

Exploring what is possible together. Applying for grants And learning.

Planning

Vision, Resources, components, sustainability, gaps, building initial group

Network Pilot

Taking first steps to connect server nodes using LOCKSS 2.0 & testing packaging & ingest processes

Organization

Developing Governance, Fiscal management, community membership

Sustainability

Keep moving, keep growing, integrate new members, manage change.

..LOCKSS Community involvement, Documentation, Iterative development…

GROWTH

Challenges for organization and sustainability

BUDGET

State budget cuts have impacted plans

ROLES

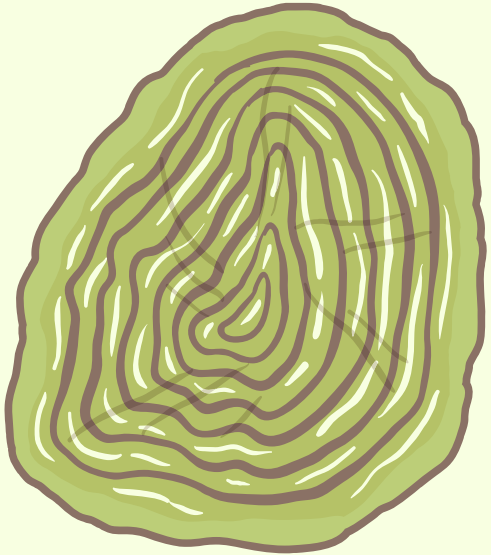
Who will lead governance? Project management?

EQUIPMENT

What hardware is needed to become a PLN?

PILOTING

How to we remain accountable? What materials? Is everyone trained?



The Sustainability and the Future……

- Simplistic Administrative Model
  - No Community Facilitator
  - Keep Costs Low
  - Clear and responsive government

The Sustainability and the Future……

- Minimizing Technical Overhead
  - Standardize ingest over customized local ingest
  - Technical maintenance through LOCKSS Program

ACADEMIC PRESERVATION TRUST

MDPN MICHIGAN DIGITAL PRESERVATION NETWORK

The Sustainability and the Future……

- Greater collaboration with the LOCKSS community
  - Share resources
  - Share experiences

LOCKSS Program

Thank You
